

HEAR YE, HEAR YE NEWS and VIEWS of EVML

Volume 19, Issue 3

July, 2011

CCR

Portola Railroad Days August 18-21 We will be camping in the Portola City Park On grass, not many trees, bring shade and mosquito repellent Thursday night they will have a Kick-off Dinner, Hamburgers and Hot Dogs. Then the festivities will start Friday, There will be a couple of Traders. We will be doing Demonstrations for the Pilgrims. Tear down around 4:30 Sunday. I would also like to announce the clubs new web site. The page is up and running, I will be continuing to add to

the page over the next couple of months. There is an email link on the page to email me any problems you find or suggestions you have for the page. Al-

so any pictures of the club members and camp outs or Rondy's email me, I will be working on the picture album page next.

Some Muzzleloading Safety Do's and Don'ts

DO's

Read and understand your instruction manual. If you didn't get one with your muzzleloader, order one from the manufacturer. They will send you one for free. Many companies now have a web site and online manuals are common.

Wear shatterproof shooting glasses and ear protection, as both percussion and flintlock guns may shower sparks and bits of caps/flints when fired.

Treat a misfire or failure to fire as though the gun can fire at any second. Wait at least a minute with gun pointed at the target.

Be sure all spectators are completely behind you when firing. Flames and bits of caps/flint sometimes exit from the side of the gun. It is good shooting etiquette to warn other shooters that you are about to fire a flint lock next to them.

DO NOT

Never fire a muzzleloader unless the ball is firmly seated against the powder charge. Firing a muzzleloader with the ball off the powder or part way up the barrel may cause serious damage to the firearm and possibly serious injury to the shooter.

Do not exceed manufacturer's recommended maximum powder charge.

Never use FFFFg black powder for a charge in any muzzleloader at any time. The only safe use for fine priming powder is for the priming of a pan on a flint lock. Fine powders will cause excessive pressures and could very well burst your barrel.

Never lean over (or stand in front of) the muzzle at any time.

Never attempt to shoot out a projectile which is not firmly seated against the powder charge.
