Some Muzzleloading Safety Do's and Don'ts

DO's

Read and understand your instruction manual. If you didn't get one with your muzzleloader, order one from the manufacturer. They will send you one for free. Many companies now have a web site and online manuals are common.

Wear shatterproof shooting glasses and ear protection, as both percussion and flintlock guns may shower sparks and bits of caps/flints when fired.

Treat a misfire or failure to fire as though the gun can fire at any second. Wait at least a minute with gun pointed at the target.

Be sure all spectators are completely behind you when firing. Flames and bits of caps/flint sometimes exit from the side of the gun. It is good shooting etiquette to warn other shooters that you are about to fire a flint lock next to them.

DO NOT

Never fire a muzzleloader unless the ball is firmly seated against the powder charge. Firing a muzzleloader with the ball off the powder or part way up the barrel may cause serious damage to the firearm and possibly serious injury to the shooter.

Do not exceed manufacturer's recommended maximum powder charge.

Never use FFFFg black powder for a charge in any muzzleloader at any time. The only safe use for fine priming powder is for the priming of a pan on a flint lock.

Fine powders will cause excessive pressures and could very well burst your barrel.

Never lean over (or stand in front of) the muzzle at any time.

Never attempt to shoot out a projectile which is not firmly seated against the powder charge.

**LAKES CROSSING RENDEZVOUS
MARCH 15, 16**

Lakes Crossings Rendezvous was March 15, 16. Friday afternoon Lips, 3 sheets, and I started to setup the tipi. I was getting more help then I needed, including 20 to 30 mile an hour winds, they were a big help. My ropes slipped on my tri pod as I stood them up. I laid the poles into their positions, rolled the canvas around the poles and it was a foot off the ground. So I dug the poles into the ground, still had 3 to 6 inches of open space between bottom of the canvas and the ground. I didn't use my Liner. So we made a fire had dinner and had some WHISKEY. We woke up with 8 inches of snow on the ground outside and 4 inches of snow on the inside of the tipi. Mostly on Lips' side, I have pictures. 3sheets woke up with a sore back said he wasn't going to do that again. He had camp packed into his truck and headed home by 9. There were 5 period camps and 2 modern. I don't remember how many shooters they had?

myself, Rex setup an 18ft tipi, I setup my 16ft tipi. There was no wind, my knots didn't slip, poles didn't move, I laid my poles into position, rolled out my canvas. And with no extra help it came out perfect 2 inches from the ground. Rex had SHRUB, I had to do some taste testing before I finished putting all my stuff into the tipi. Lips arrived and said here have a shot, he gave me a shot of OL' Granddads' Whiskey, then we had a couple of shots of 3SHEETS's whiskey (he had left them in my camp when he had left early at LXMLS' Rendezvous, yes we had some left) we drank the 127 until it was gone then we started on the 101. 3sheets started setting up his camp, we continued drinking his whiskey without letting him having any. He had asked me where his whiskey was I told him lips had it. Lips told him I had it. We had the shoot on Sat. it was a good shoot. There were no easy targets on the range. We had a great Potluck, with a lot of great tasting food. The parties began shortly after the food was put away, and continued through the night.

EAGLE VALLEY MUZZLELOADERS SPRING RONDEZVOUS

At noon on Friday we had 6 kampz setup and, we had 12 Primitive kampz, 1 Modern kamp, when it was all said and done. We had 16 shooterz sign in. Had great weather for the Rony. We had 4 kampz, 7 kamperz frum Tonopah, 3 kampz 4 shooterz frum Reno, and 6 kampz 7 kamperz frum Carson. Dave McClenahan won all the men's eventz. Cindy Zimmerman won the Woman's Rifle, and the Hawk & Knife, no entryz fer woman's Pistol. We were able to hear the Sheep all weekend. Sat morning they were on the hill with our targetz. They were off before we started shooting. Sunday they were coming up the road as we were striking kamp, by the time I got my kamp in the truck they were all around me. As we were finishing, Borda setup the water troughs for the sheep, and the Water Truck started filling them, the sheep gathered around them, you couldn't see the road. Pat had hooked up the Hooter trailer to his truck, came down to say he was out of there, and the sheep invaded his truck, and was on both landingz of the trailer, and wuz under his truck for shade. The sheep were in our range for a week. It didn't smell like shit when we had r Klub shoot.

CARSON CITY RENDEZVOUS JUNE 13,14,15

Is coming up soon, so dust off your Rendezvous duds, gather yer Plews, and come on down to Mills Park. Visit Traders Row an teach pilgrims, how to throw tomahawks, loadin Muzzleloaders, settin traps, and Fire Startin with Flint and Steel. Let's make lots a noise, no word yet if we are getting Powder? We might have to get the Rendezvous committee to buy it for us, without taking it out of our camping moneys? Hope to see all of you there.
