Rendezvous Season is Here

It's that time of the year again. The time we have all been waiting for, Rendezvous time.

LXML just had their first one of the year this last weekend. I have been told they had a good time, but did wake up to 6 inches of snow Saturday morning.

We will be holding our first Rondy of the year the last weekend of March 28-30 at Fort Churchill. The annual winter camp out had to be canceled due to not being able to reach our range. There will be a

pot luck dinner at Fort Churchill on Saturday starting at 1pm. The club is providing the hamburgers call Tony & Sue Bennett 324-3456 to let them know what dish you will be bringing.

There will be a work party to set up the range on March 22 10am meet at the museum.

KRYER'Z KORN

WE WUZNT ABLE TA KAMP FER R FEB SHOOT
WE HAD R MARCH KLUB SHOOT DISLAS WEEKND DA RANGE NEEDS SOME WERK 3 TARGETS ARE BROKE AN LOTS OF THE SIGNAGE IS DISTROYD LXML GOTZA RONDY MARCH 14, 15, 16 WE GOTZA WERK PARTY SCHEDULD FER MARCH 22ND AT FT. Some Muzzleloading Safety Do's and Don'ts

DO's

Read and understand your instruction manual. If you didn't get one with your muzzleloader, order one from the manufacturer. They will send you one for free. Many companies now have a web site and online manuals are common.

Wear shatterproof shooting glasses and ear protection, as both percussion and flintlock guns may shower sparks and bits of caps/flints when fired.

Treat a misfire or failure to fire as though the gun can fire at any second. Wait at least a minute with gun pointed at the target.

Be sure all spectators are completely behind you when firing. Flames and bits of caps/flint sometimes exit from the side of the gun. It is good shooting etiquette to warn other shooters that you are about to fire a flint lock next to them.

DO NOT

Never fire a muzzleloader unless the ball is firmly seated against the powder charge. Firing a muzzleloader with the ball off the powder or part way up the barrel may cause serious damage to the firearm and possibly serious injury to the shooter.

Do not exceed manufacturer's recommended maximum powder charge.

Never use FFFFg black powder for a charge in any muzzleloader at any time. The only safe use for fine priming powder is for the priming of a pan on a flint lock. Fine powders will cause excessive pressures and could very well burst your barrel.

Never lean over (or stand in front of) the muzzle at any time.

Never attempt to shoot out a projectile which is not firmly seated against the powder charge.

CLUB EVENT SPRING 2008

March: Club Shoot
Fort Churchill Camp-Out
28-30

April: Meeting the 4th
Club Shoot the 12th
Spring Rondy 25-27
