## SUMMER IS HERE FINALLY

Summer Seems to be here finally.

After what has to me seemed like a long winter hibernation, too bad it will get hot now.

70-80 would be nice but oh well. I hope everyone who went to the Memorial Day Rendezvous had a nice drive up to the camp. I would like to thank Ben and my

dad Don Montgomery for their help that weekend. Pat, and

Springmyer worked on the camp area cleaning up trash and

planted the water bottles. Thanks to everyone else that helped on the other work parties to get ready for the rendezvous this summer and fall.

## KRYER'Z KORN

SUMMER IZ HERE?

U WOU DA THUN KSO FER R RONDY

THA WEDDER WUZ HOT FER DA MIDDLE

OV SPRING WED GOT ALMOS 15 KAMPS

AN 20 SIGND SHOOTERZ

 WE HAD 2 JUNIOR  
 GIRLZ  
 JUSTINE AN CIN-  
 THIA  
 IT WUZ CINTHIA'S  
 FIRST SHOOT  
 WITHOUT CROSS  
 STICKS

## SOME MUZZLELOADING SAFETY DO'S AND DON'TS

### DO's

Read and understand your instruction manual. If you didn't get one with your muzzleloader, order one from the manufacturer. They will send you one for free. Many companies now have a web site and online manuals are common.

Wear shatterproof shooting glasses and ear protection, as both percussion and flintlock guns may shower sparks and bits of caps/flints when fired.

Treat a misfire or failure to fire as though the gun can fire at any second. Wait at least a minute with gun pointed at the target.

Be sure all spectators are completely behind you when firing. Flames and bits of caps/flint sometimes exit from the side of the gun. It is good shooting etiquette to warn other shooters that you are about to fire a flint lock next to them.

### DO NOT

Never fire a muzzleloader unless the ball is firmly seated against the powder charge. Firing a muzzleloader with the ball off the powder or part way up the barrel may cause serious damage to the firearm and possibly serious injury to the shooter.

Do not exceed manufacturer's recommended maximum powder charge.

Never use FFFFg black powder for a charge in any muzzleloader at any time. The only safe use for fine priming powder is for the priming of a pan on a flint lock. Fine powders will cause excessive pressures and could very well burst your barrel.

Never lean over (or stand in front of) the muzzle at any time.

Never attempt to shoot out a projectile which is not firmly seated against the powder charge.

## CLUB EVENT SPRING 2006

CARSON CITY  
 RENDEZVOUS  
 JUNE 9-11  
 MILLS PARK,
