NEWS and VIEWS of EVML

Volume 16, Issue 4

October/November, 2008

Election Time

The year is coming to a close fast. I am still not sure where the year has gone. I hope every one has had a good year, with lots of fun Rendezvous.

We had a work party at Fort Churchill on the 13th of Sept. Four people showed up; Matt, John, Pat, and Jolee. We cleared willows around a bridge and cleaned/remarked a walking trail.

We will be in the Nevada day parade again this year, the parade is on November 1 start time

10am, line up on West Long St. by 9 am entry# 071. The October meeting was moved to the 11th after the club shoot. Our fall Rendezvous was on Sept 26-28.

Club nominations will be at the next

meeting on Nov 7 Remember at the December meeting we have the pot luck diner starting at 6 pm before the meeting and elections.

Some Muzzleloading Safety Do's and Don'ts

DO's

Read and understand your instruction manual. If you didn't get one with your muzzleloader, order one from the manufacturer. They will send you one for free. Many companies now have a web site and online manuals are common.

Wear shatterproof shooting glasses and ear protection, as both percussion and flintlock guns may shower sparks and bits of caps/flints when fired.

Treat a misfire or failure to fire as though the gun can fire at any second. Wait at least a minute with gun pointed at the target.

Be sure all spectators are completely behind you when firing. Flames and bits of caps/flint sometimes exit from the side of the gun. It is good shooting etiquette to warn other shooters that you are about to fire a flint lock next to them.

DO NOT

Never fire a muzzleloader unless the ball is firmly seated against the powder charge. Firing a muzzleloader with the ball off the powder or part way up the barrel may cause serious damage to the firearm and possibly serious injury to the shooter.

Do not exceed manufacturer's recommended maximum powder charge.

Never use FFFFg black powder for a charge in any muzzleloader at any time. The only safe use for fine priming powder is for the priming of a pan on a flint lock. Fine powders will cause excessive pressures and could very well burst your barrel.

Never lean over (or stand in front of) the muzzle at any time.

Never attempt to shoot out a projectile which is not firmly seated against the powder charge.

CLUB EVENTS Winter 2008

Nov: Meeting the 7th
Club Shoot the 8th

Dec: Meeting the 5th
Club shoot the 13th

Second Saturday
of Each Month Club Shoot
(winter start time is 10:00 a.m.)
